

# Final Presentation

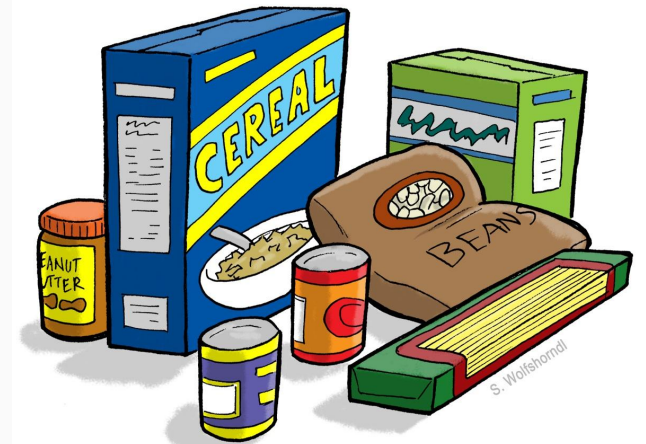

## Group 6

Doruk Taneli  
Philipp Martens  
Alexander Kranzer  
Yuna Jeong  
Bogyu Jeong

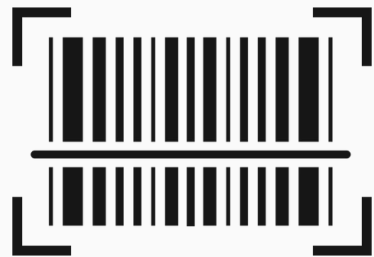

# Motivation

*Can I eat this?*

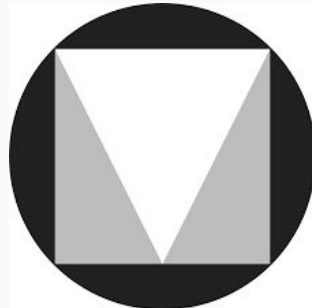

*What is it made of?*

# Our Solution

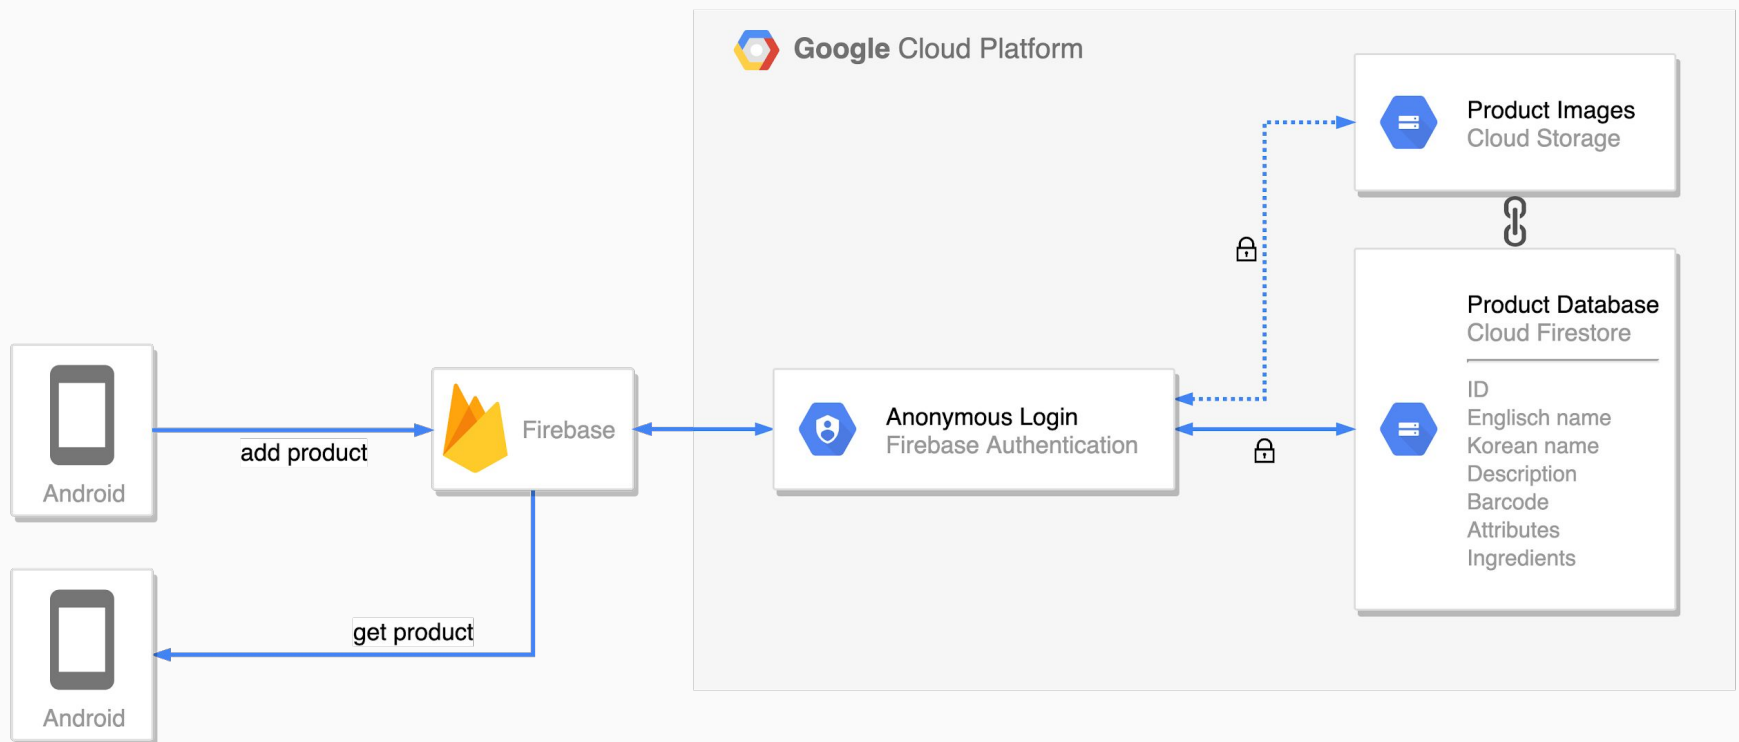

# Tools and Libraries

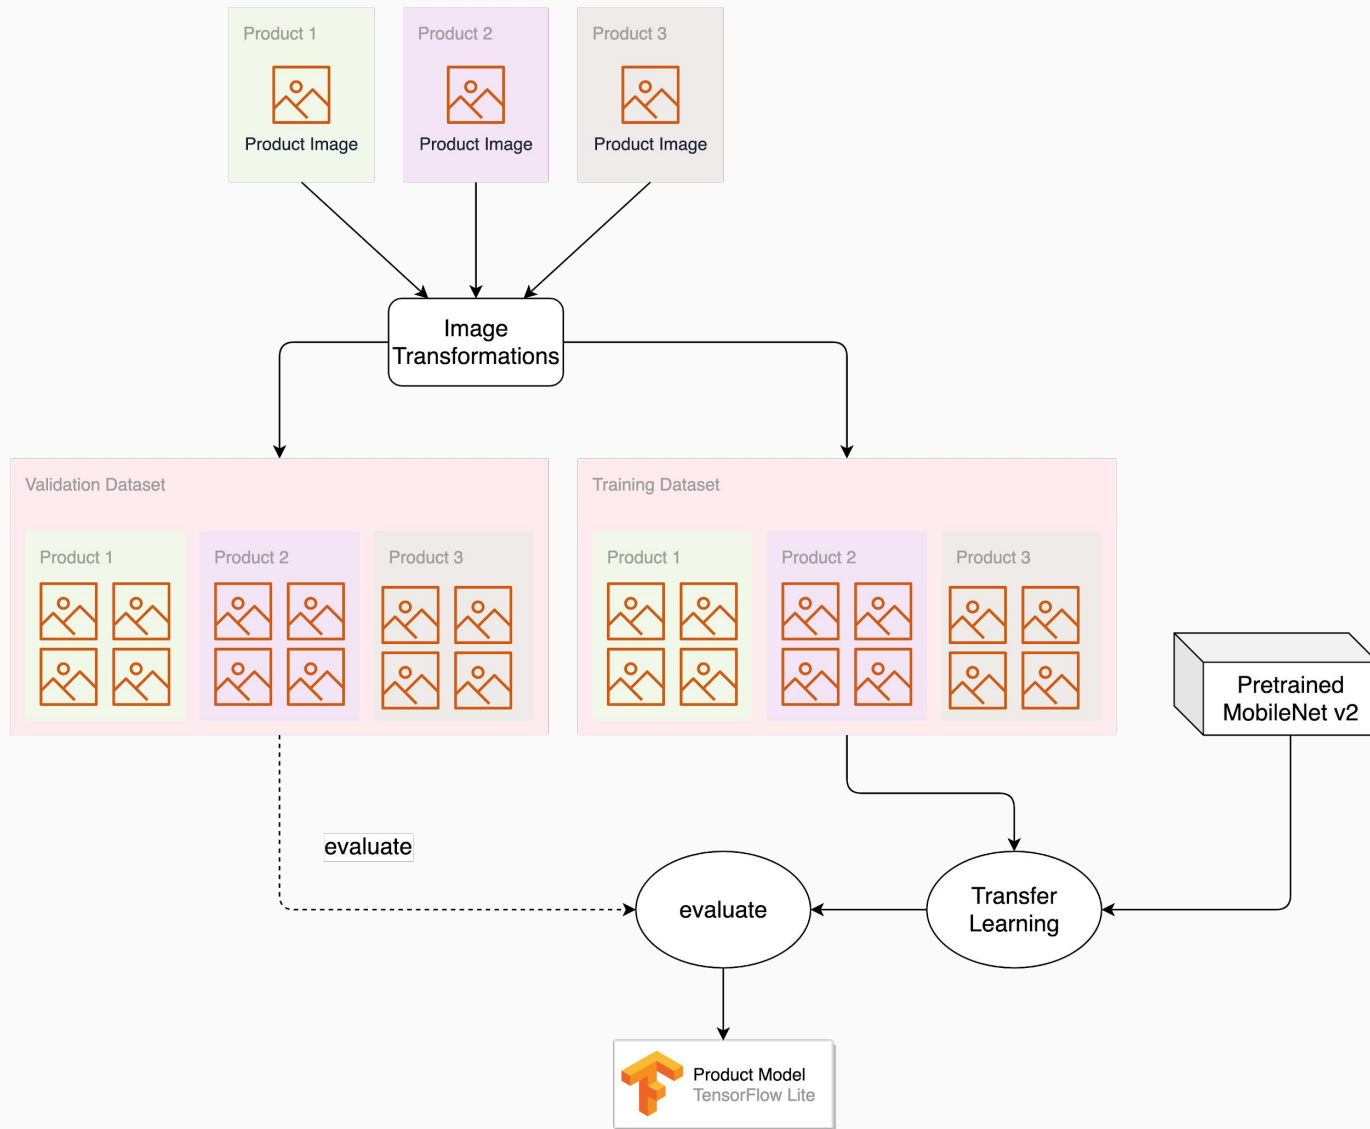

## Other Libraries:

- Volley by Google
- MaterialSearchBar by mancj
- ProgressButton by razir
- uCrop by Yalantis

# System Overview

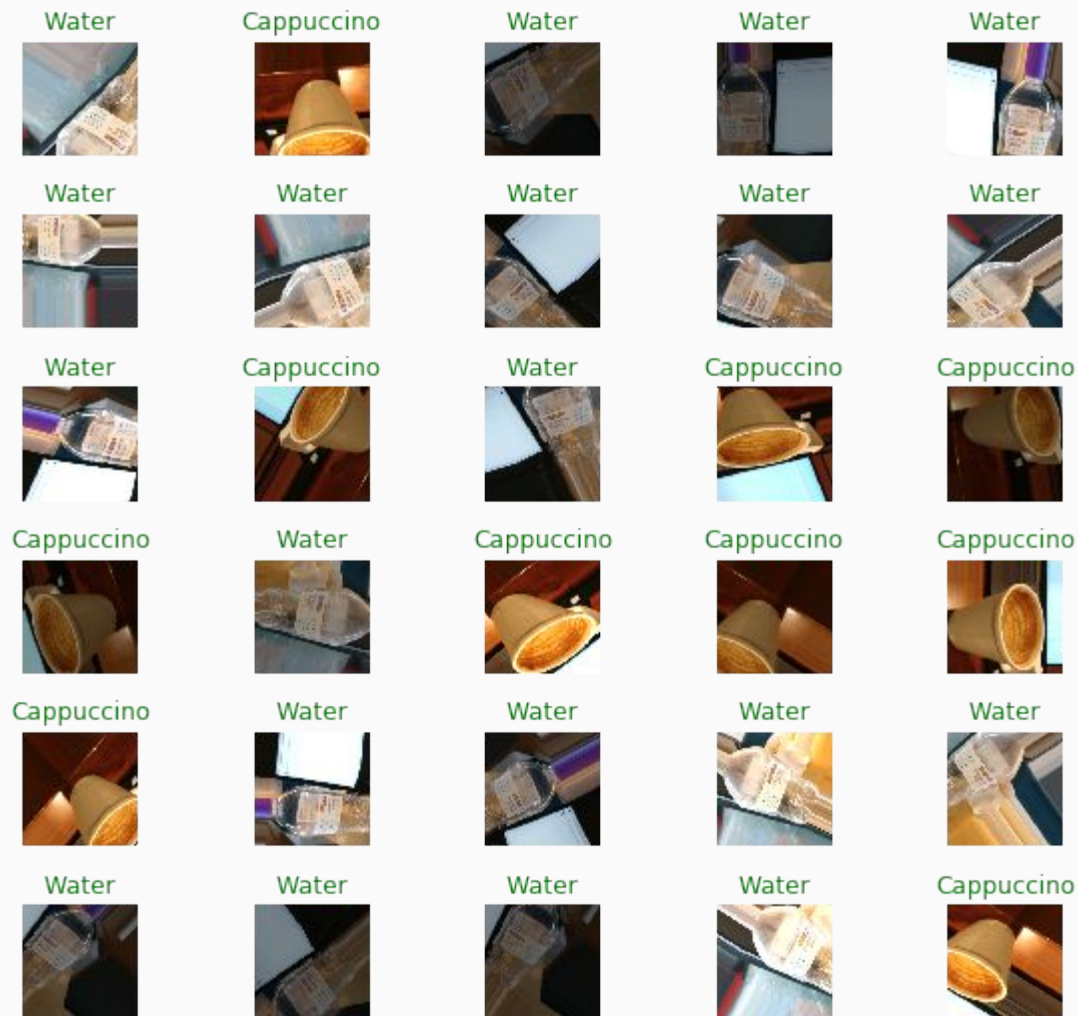

# Product Model

# Evaluation

Model predictions (green: correct, red: incorrect)

# Key Technical Challenges

Problem	Solution
Firebase Firestore doesn't provide a search function	On device search
Real-Time barcode scanning	ML Kit
Deep nesting of ingredients	Only load ingredients on demand
Product image recognition	Tensorflow Lite
